

rxTools nightly build
buggy and incomplete

IMPORTANT:

rxTools.dat has been moved to /rxTools/sys/code.bin.
firmware.bin has been moved to /rxTools/sys.

If you have a New 3DS, use 0004013820000002.bin
from ReiNAND v2 (search for Reisyukaku's pastebin)
instead of firmware.bin and put it in /rxTools/data.
